

# The Context of your Gift

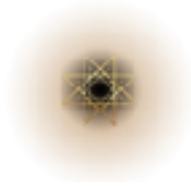

Our planet Earth, the planet we've chosen to incarnate into to continue our Soul's evolutionary path, has originally been, and still is, a 5 Dimensional planet.

But at the moment of our incarnation, Earth is in the final stages of its quarantine : the 3 Dimension. That is why many of us feel or felt "trapped".

What we are experiencing is the end of the quarantine that kept the planet and its beings learning to use their power in a correct way : for love and creation, instead of destruction and manipulation.

The way to access and learn to use our power was mainly through the lessons of our emotional body : pain and suffering played the role to help us rise from victimhood, laziness, narcissism, control, oppression, etc to our original state of creators of our reality. We started to seek healing from so much suffering, discovering that we can actually choose, at every single moment, how we think, feel and act.

**As a Luminary, you are now having the knowledge, the experience and the tools of a creator of your own reality: a path-finder and a way-shower at the same time. A pioneer of the New Earth**

The EPIC TIME we are being part of is the dissolution of the 3 dimensional quarantine : as we recover and restore our senses, our capacity to **perceive and discern**, we exit what we call the MATRIX.

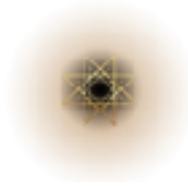

How are we being part of this dissolution ? Doing our personal work, making daily choices to create the new in every single area of our life. Picking up the 13 pillars of consciousness (month #7) that help us "see more clearly" and expand our consciousness.

**The keys that open the door out of the 3D are : self responsibility and inner mastery.**

There are sources saying that we are already at the final stages of the 3D MATRIX : it has been removed from the most part of Earth. Proof of this is the vibration that the Earth now has (around 7.38HZ), the change of time lines, the geological movements, climate change, and of course the "chaos" and "confussion" we see in our humanity.

How are we being kept part of the 3D ? The 3D Matrix is not something physical. It is a belief system that makes each one of us belief we are limited.

We could say with absolute certainty : **every thought of limitation is a door to go through and leave the 3D Matrix.**

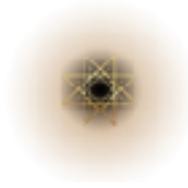

What happens where we exit the 3 Dimensional MATRIX ? Where do we go ? Exiting the 3D does not mean that you go anywhere, that you are enlightened or “spiritual” or even free. The evolutionary path (or ascension) is a process in layers, with its own rythm, and it highly depends on your personal dedication. Self enquiry and capacity to make different conscious choices, from the most simple to the most complex. It does not depend on initiations, diets, clothes, place where you live, relationships or conversations.

**We are out of the MATRIX when we can be absolute loyal to what brings peace and joy to our heart: that is what we’ll call a “conscious choice”.**

You may feel this is rather a simplistic way, or even egoistic. Yet, the invitation is to observe and experience for yourself : how do you make choices from a heart centered place, being aboslutely at peace, knowing deeply within yourself this is the RIGHT thing to be, do and say.

**As Luminaries we know, as we take our seat in the tapestry of New Humanity, that the way to restore outer peace, is to create inner peace first.**

So we would say that exiting the 3D brings us closer to our Heart, and to our sense of Peace. As we exit the 3D, we are closer to our essence, our divine human essence. YET, there is a long way to go...

The following table aims to guide you through the transition we are all experiencing on Earth, as we exit the 3D MATRIX, we walk through the 4th Dimensional Matrix, and we step into the 5th Dimensional Matrix.

Each Dimension has 8 “levels” or layers, and the transition through them is, as mentioned above, highly personal and intimately related to the quiet, personal work each one of us does. The path is not linear, as we know

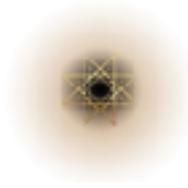

Currently there are very few humans fully on the 5th dimension. The path through the 8 layers of the 4th dimension is quite tedious and requires a lot of LOVING presence, COMMITMENT and WILL to keep going,

**As Luminaries we know this is not a path to perfection. It is a path to the real divine human essence that we are. A path to the limitless heart.**

So let's take a look at the following table :
